ENCLOSURE 03 / 99 DD+DIS 027.99E 1 Piece TMN6X MA 1 CM+9.5145.9110.0	Vacuum Hose of the Energy Chain

CM+9.5145.9110.0 Energy Chain Robot Carriage

Shortening of the Vacuum Hose of the Energy Chain concerning machines

TYPE	as of SN	
5145 / 100	**1213**	(230 V *****)
5145 / 140	**5070**	(208 V Δ)

The length of the vacuum hose has been altered. Older machines up to SN 1212 / 5069 need the full length of 850 mm, machines from SN 1213 / 5070 on need a shorter vacuum hose with only 620 mm in length.

The spare part CM+9.5145.9110.0 **Energy Chain Robot** is in stock only with a vacuum hose of 850 mm in length.

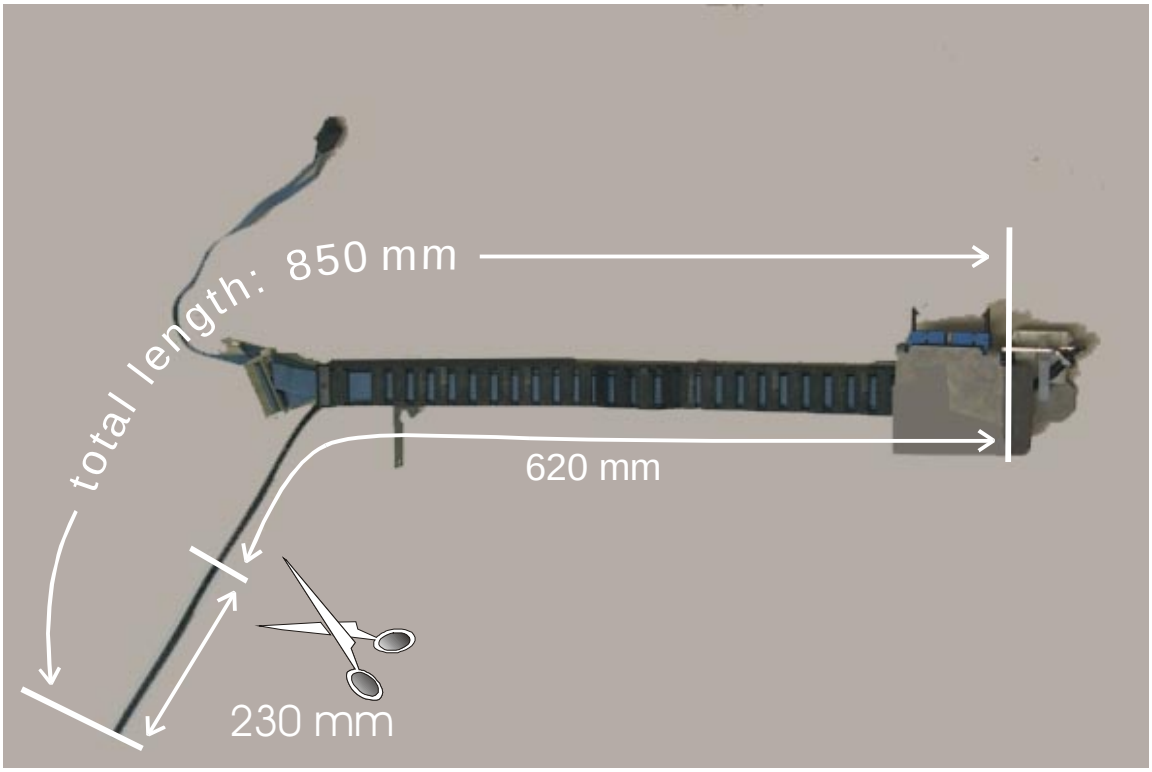
p.t.o.

printed in Germany

AGFA

The length of the vacuum hose has to be shortened from 850 mm to 620 mm **(= 230 mm)** with machines

- as of SN **1213** (230 V * - version) or SN **5070** (208 V Δ - version) respectively.
- on which a modified IP- Transport is already installed (only when a new vacuum hose is needed)



Shortening of the vacuum hose by 230 mm.

Caution: Make sure that hoses which already have a length of 620 mm are **not** shortened a second time.
